

**On the cover**  
 The Model 9600 single and double wide 7' doors in the Colonial design enhance this distinctive coastal-region home. The doors feature Stockton I windows. The doors are shown in Gray.

The TorqueMaster® counterbalance system seals springs safely inside a steel tube to prevent accidental release of tension that could cause injury. TorqueMaster Plus® is available with anti-drop safety technology beginning 2007.

Tamper-resistant safety bottom brackets help avoid possible injury by preventing inadvertent loosening when the counterbalance cables are still under tension.

Door panels are engineered with pinch-resistant design to prevent finger injuries while the door is closing.

For a true custom door look, add decorative hardware straps and handles to your Model 9100 Sonoma or 9600 Sonoma door. In six designs including black hammered-look steel shown here.

Models 9100 & 9600 are available with structural reinforcements for use in coastal regions. It meets windload requirements of the International Building Code, Florida Building Code and Texas Dept. of Insurance.

# These are no ordinary garage doors.

The front panels of Models 9100 & 9600 are made with high-tensile steel finished with an easy-to-maintain, baked-on polyester finish. Inside, top and bottom horizontal struts add rigidity and result in smoother operation. The foamed-in-place insulation delivers better sound control and dent resistance.

STYLE COLOR WINDOWS HARDWARE

Begin by selecting the panel style you like. Most people add a touch of individuality to their door by specifying windows, a color and optional decorative hardware to complement their home.

## model 9600

All garage doors don't have to look alike. The **Model 9600** has more panel styles to complement your home's architecture. In addition to traditional colonial styling, you may also choose an elongated ranch style, contemporary or the fashionable Sonoma styling.

## model 9100

Here's a door with excellent insulating ability to control energy costs and shield your family from street noise. The Wayne-Dalton **Model 9100** garage door is a terrific choice for performance and value. Five distinctive panel options are available.

## PANEL STYLES

Ranch Colonial Contemporary Sonoma Sonoma Cathedral

Single-width doors are available in 8' or 9' widths. Double-width doors are available in 16' or 18' widths. All widths are available in 7' and 8' heights.

## more color choices.

Choose one of our factory-finishes that never needs painting. Or, use a good quality exterior latex paint that matches your home's trim exactly.

## COLORS

White Almond Taupe Brown Gray\* Model 9100 only Green\* Model 9600 only

## windows make your door part of the architecture.

Select from three window series to complement your home's design. With so many choices, it's easy to create a seamless style for your home.

## RADIANCE™ WINDOWS

available radiance™ windows

Radiance windows use optically-enhanced film developed by 3M.™ The technology creates a dramatic, prismatic effect that permits intricate design options impossible with glass alone.

\*\*Available for Ranch, Double Colonial or Double Sonoma

## DÉCOR™ WINDOWS
